

CAPABILITY STATEMENT

At RM Engineering our team of dedicated and networked engineering professionals are committed to adding value to your projects whilst providing high quality design and delivery solutions.

Through experience and project learnings we have developed a strong understanding of the challenges that Clients and Contractors face and offer a tailored and flexible delivery approach that ensures these challenges are overcome.

Delivering practical turn-key electrical, control, automation, instrumentation and telemetry design solutions for all aspects of the project lifecycle, we are confident that RM have your project needs covered.

PLANNING

- FEASIBILITY STUDIES INCLUDING COST **BENEFIT ANALYSIS**
- PROJECT SCOPING AND PLANNING ADVICE
- BUDGET PREPARATION AND FORECASTING
- BUSINESS CASE DEVELOPMENT AND GRANT **FUNDING APPLICATIONS**
- PROCUREMENT PLANNING

AUDITS

- CONDITION ASSESSMENTS
- POWER QUALITY ASSESSMENTS
- WHS AUDITS
- AS/NZS 3000 COMPLIANCE ASSESSMENTS
- ENERGY CONSUMPTION AUDITS INCLUDING TARIFF ASSESSMENT
- ARC FLASH ASSESSMENT AND MODELLING
- SOLAR PV + BATTERY STORAGE SYSTEMS **ASSESSMENTS**

DESIGN

- PRELIMINARY DESIGN
- · CONCEPT DESIGN
- · DETAILED DESIGN
- DRAFTING
- TECHNICAL SPECIFICATIONS & SCHEDULES
- EQUIPMENT SELECTION

DELIVERY

- PROPOSAL, TENDER & CONTRACT DOCUMENTATION
- PROCUREMENT
- TENDER EVALUATION
- CONSTRUCTION MANAGEMENT
- SUPERINTENDENTS REPRESENTATIVE
- · COMMISSIONING SUPPORT
- SITE INSPECTIONS, AUDITS & PREPARATION OF DEFECT REGISTERS
- FAT & SAT SWITCHBOARDS + CONTROL SYSTEMS
- O&M DOCUMENTATION & TRAINING

ELECTRICAL + CONTROL + AUTOMATION + INSTRUMENTATION + TELEMETRY
